

High Yield, High Income
CHAMPION CORNS

EVEREST

EVEREST

- 119 day hybrid for grain.
- 105 day silage hybrid. *
- Superior germination and seedling vigor.
- Leaf architecture is horizontal.
- Produces extra long ears with ear set being somewhat variable.
- Well adapted across many environments.
- Excellent stay green.
- Best used as a silage hybrid.
- Best planted at 5.5" between plants on 30" rows.
- Will flourish in most soil types.

SILAGE PROPERTIES

The extra large leaves and high grain to stover ratio make EVEREST an outstanding silage hybrid, with superior feeding value giving high milking or growth performance.

*The performance of the variety may vary according to the climatic conditions, cultivation practices and soil types
